SpectraPour

Safety Playground Surfacing

SpectraPour safety playground surfacing has been our flagship poured-in-place system since its inception in 1986. SpectraPour has been used on thousands of projects throughout the US at parks, schools, daycare centers and other applications requiring a high quality, poured rubber safety surface.

SpectraPour is mixed on-site, and may be used to provide ADA access to existing playgrounds, to retrofit existing play areas, or to fill entire new playgrounds with quality rubber surfacing that stays in place during use.

SYSTEM DATA

- 2-layer system – mixed, poured & troweled on-site
 - Base layer of shock-absorbing rubber material
 - Half-inch-thick wearing surface of rubber granules
- Available in 20 colors (colors can be mixed)
- Create custom shapes and designs
- Porous system may be installed over Type 2 road base, concrete or asphalt surfaces
- Typically used outdoors
- Conforms to requirements of the ADA
- IPEMA Certified
 - ASTM F1292 for head impact protection
 - ASTM F1951 for wheelchair accessibility
- Available for LEED® credits
